WHY BUSINESS ADMINISTRATION?

Business administration is one of the most popular and highly sought after majors of study at universities globally. While it is considered a competitive and challenging area of study, students pursuing a Bachelor of Business Administration (BBA) are prepared to join the business community and its many interesting career opportunities. A graduate with a business degree has a distinct edge when applying to jobs, especially in large and multinational corporations, government agencies and nonprofit organizations. The BBA is offered by the Department of Management at The American University in Cairo (AUC) School of Business, which strives to ensure that students master the knowledge required to succeed in a dynamic environment. Courses offered in this major cover different areas of business including management, entrepreneurship, accounting, marketing, finance, management of information systems, and operations management.
A UNIQUE LEARNING EXPERIENCE
A degree in business administration prepares students to be future leaders of businesses in the region and beyond. The learning experience of a business student at AUC School of Business goes beyond a typical classroom experience. Inside the classroom, students benefit from applying business knowledge by working on projects, participating in simulations, writing case studies and working on projects with companies. Outside the classroom, students participate in national and international competitions, study tours and conferences, and are exposed to a real life pace and enrich their practical experience. Furthermore, internships develop their professional experience, prepare students for the real world and enable them to build networks that will stay with them throughout their entire careers.
CAREERS

Business administration graduates do not just join the workforce, they influence it, shape it and change it for the better. The program teaches them not only to recognize opportunity, but to create it. This is a necessary skill in a business environment that is constantly evolving. A business and management studies degree prepares for a career in business, which may stretch across any sector or industry, therefore career options are varied.

There are many different career options for a graduate with a BBA. The degree may lead to work in administrative and management functions in finance, marketing, operations, human resources and more in multinational corporations, financial institutions, consulting firms and the banking sector. Graduates can also pursue their dreams of opening their own business and venture into the area of entrepreneurship. A business administration graduate is also prepared to pursue an academic degree by applying to master’s and PhD programs in various areas of management.

The program prepares students not only for their first job after graduation but for a lifetime of contributions to the private, public and nonprofit sectors.

REQUIREMENTS

ELIGIBILITY CRITERIA:
The number of students accepted to the BBA program is limited and is filled through the declaration of major process.

Students who seek to be admitted to the BBA program should apply in their third semester, and must have completed not less than 27 credit hours of study, fulfilling the following criteria:
1. Courses:
   • ACCT 2001 - Financial Accounting
   • ECON 2021 or 2011 - Introduction to Macroeconomics
   • BADM 2001 - Introduction to Business
   • MACT 2222 - Statistics for Business

2. Score: Weighted Grade Point Average (GPA)
The selection of students into the business major is competitive and will depend on the calculation of an equal weighted score between:

I. Overall GPA
   a. A minimum of 127 credits must be completed
   b. All courses a student has completed will be included in the calculation, excluding in certain cases, the course with the lowest grade.*

* A student could be eligible to have his or her lowest grade excluded from the calculation of the overall GPA if he or she has completed 30 or more credit hours.

II. Major GPA
The major GPA based will be calculated using the following criteria:
   a. A minimum of 18 credits of courses related to the business major must be completed.
   b. All business major courses, including collateral courses, that the student has completed will be included in the calculation, excluding in certain cases, the course with the lowest grade.*

* A student could be eligible to have his or her lowest grade excluded from calculating the Management Related GPA if he or she has completed 15 or more credit hours.
MAJOR REQUIREMENTS:
The curriculum for a BBA offers a comprehensive coverage of subjects. Courses will be divided into four parts: core curriculum, collateral course requirements, business core and concentration courses. A total of 127 credit hours are required to graduate.

Students who seek a BBA degree are not permitted to register for a minor in accounting or entrepreneurship.

Students can choose from the following five concentrations:

- Entrepreneurship: The student is prepared to venture into a new business or startup. This is becoming the fastest growing discipline and has a major impact on economic development of nations, creation of employment, development of innovations and finding solutions for many social problems.

- Finance: The student learns how to manage the finances of firms and institutions, as well as study, identify and differentiate between the various areas of finance including general finance, corporate finance and financial services.

- International Business: The student learns different areas of international business and globalization which emphasizes global business practices whilst giving a special focus on the economic issues in the Middle East and Egypt specifically. This prepares them for the global marketplace without compromising the regional focus.
• Management of Information Systems: The student learns computing in business through organizational analysis, database management, web/network management, electronic business and systems development, as well as effectively working and integrating with other functional business areas such as marketing, finance and accounting.

• Marketing: The student learns the activities involved in the process of buying, selling, pricing, transporting and advertising, as well as the different ways of segmenting, studying and appealing to final consumers including individuals, business organizations and nonprofit entities.
