

Career Development Department Strategic Procurement Management

This certificate designed to qualify the learners to compete in the emerging job market of Procurement Management. Throughout the 3 stages of studying Supply Chain Management and Strategic Procurement Management, the learners will bridge the gap between the academic theories and the real-world Procurement management. Studying Achievement Certificate in Supply Chain Management familiarizes the learners with the concept of supply chain management and the basic functions of supply chain professionals. Foundation Certificate in supply Chain Management provides the learner with in-depth knowledge about other supply chain-related aspects like; TQM in supply chain, contract and tender management, risk management, project management basics and advanced marketing channels management. Pursuing Career Certificate in Strategic Procurement Management enhances the skills and abilities of the learners to develop strategies, plan and manage the strategic sourcing and procurement.

Admission Requirements:

1. Applicants must pass the Standardized English Proficiency Test (SEPT) with a score equivalent course ENGGB1A.
2. Applicants must have basic computer literacy

* Learners who completed a Foundation certificate or AUC continuing education certificate are required to sit for the SEPT if they dropped out for a period of one year or more from the date of completing the certificate.

Trainees are assessed throughout the term by assignments (lesson plans, observation tasks, practical teaching practice and written reflections) and a written exit test. The final grade is therefore an accumulation of continual and achievement assessment for which the minimum accepted score is 70 percent. Final course grades are NOT based on attendance, since in accordance with SCE's attendance policy, learners must attend at least 75 percent of the class sessions in order to be allowed to take the final examination.
