MEDICAL EMERGENCIES

The School of Continuing Education of the American University in Cairo welcomes your child to this session of the Youth Program. In past years, the program has been very successful and the children have been happy and satisfied. We believe that good planning contributes to the success of our program. Such planning includes preparation for possible emergencies.

To this end, we would like to inform you that should your child require emergency medical attention, he/she will be referred immediately to the AUC clinic or the nearest hospital. The clinic staff will deal with the medical emergency as they see fit.
